who were equally weary. Mr. Ensley was congratulated by hundreds of his friends, and among those whose faces showed their intense gratification were Senator Matson and James M. Noel, his untiring lieutenants; Chairman Elliott and Secretary Negley, of the county committee; R. O. Hawkins, A. A. Young, William Bogardus and his successful fellow-candidates.

When 2sked for an expression as to th result Mr. Kuhn's attorneys had nothing to say beyond an admission that they were defeated on the face of the returns. They declined to state whether they would carry the fight into the courts, and, although there were numerous intimations that they would adopt such a course the Republican leaders do not anticipate legal difficulties. While the Democrats claim that by going into court they could have ballots that were counted for Ensley thrown out and others that had been rejected by election boards counted for Kuhn, Republicans claim that this rule would work both ways. Mr. Ensley and his attorneys are ready for any legal complications which might ensue. For instance, they claim that in one precinct they permitted fifty-two votes to be counted for Kuhn which they can have thrown out by a strict legal investigation. | ticket and made that their slogan. The DEMOCRATS COURTEOUSLY TREATED

In order that the Democrats might have no possible grounds for charges of unfairness, the Republicans stretched a point to give them the most courteous treatment, and in a number of instances they went out of their way to give Mr. Kuhn's attorneys every opportunity to investigate any | The Populist, Socialist and Socialist Labor doubtful point during the canvassing. In short, they were given, and took, more liberties during the progress of the canvassig than the Republicans themselves.

These courtesies extended by the Republicans were in marked contrast, it was pointed out, to the tyrannical methods of Democrats in past years. In those trying times Democrats made no bones of refusing Republicans the most ordinary privileges. Canvassing behind locked doors is not altogether a Democratic procedure of past, for incontrovertible evidence shows that in Green and Vigo counties on Thursday of this week Democrats forcibly ejected Republicans from canvassing board rooms and went on to do as they pleased with the returns behind barred doors and closed transoms. In Vigo county, where publicans secured a restraining order from the court to stop the high-handed course of the Democrats, a lawyer who attempted to read the order before the board was assaulted by a prominent Democrat and thrown out of the room. With such treatment as the Democrats were accorded in Marion county unbiased party men of either persuasion do not think that Mr. Kuhn has the ghost of a reason for a pro-

AN INTERESTING FEATURE. One of the most interesting features of the county election, aside from the contest coroner, Harry Tutewiler winning over Dr. Dudley M. Culver by 891. It was thought by many that Tutewiler's plurality would exceed Metzger's for sheriff, although the result proved otherwise, Metzger beating George Harper (Pro.)...... 1189 Jacob Woessner by 1,275.

and in gloomy silence by the Democrats, defeat John Ruckelshaus for prosecuting attorney, he is among the top-notchers, his plurality over Clarke being 3,325. Aside from the judges and Mr. Overstreet, Lew Shank leads the county ticket, with a plurality of 3,763 over John Webb. Cy Clark, the "farmers' choice," made good his claim that distinctive title with a plurality of 2,541. John McGregor ran very fast indeed with 3,416 votes over his opponent for commissioner in the Second district. As a whole the result exceeded all expectations of the Republicans and is extremely gratifying to them.

> STORMS'S PLURALITY. Daniel E. Storms, who headed the state ticket, received a plurality of 3,927, but, like Mr. Overstreet, his plurality was exceeded by that of a judge-Daniel W. Comstock, whose plurality was 4.188. David Sherrick, for auditor, also received a slightly larger plurality than Mr. Storms, winning by 3,942. Charles W. Miller, for attorney general, made a gratifying showing, his plurality being 3.916. Notwithstanding the scurrilous attacks made on the character of Fassett A. Cotton, he ran well up with the state ticket, and beat Samuel L. Scott for state superintendent by 2,641.

Benjamin F. Johnson, for state statistician, is the tailender, although winning by the good plurality of 2,312. The Prohibitionists are jubilant over the showing they made in the county. During the campaign they set their hearts on poll-ing a vote of 1,300 on the head of their official count shows that their hopes were realized, James N. Dungan, candidate for secretary of state, receiving 1,304 votes. This is the largest vote ever cast by the Prohibitionists in Marion county and is an increase of 602 over their vote in 1900. If this ratio of increase is maintained for a few hundred years, at some sweet, far-distant day the Prohibitionists may elect a county offi-

vote cut a decidedly small figure, as shown by the returns.

The fact is remarked that Frank W Bearss, of Peru, who made a phenomenal race for the Legislature in the normally Democratic county of Miami, will be the only member of the next Indiana General Assembly who has had three members of his immediate family in the same body Mr. Bearss's father was the Hon. D. R. Bearss, a well-known Republican leader in northern Indiana in the days of Oliver P. Morton, and a member of the Senate in the early seventies. During the time he was in the Senate his eldest son, George Bearss represented Fulton county in the House. Later A. C. Bearss, present postmaster at Peru, was elected to the House from Miami county. Mr. Frank W. Bearss is the third brother to be thus honored. BARN FULL OF HUNGRY WILD BEASTS AT LAFAYETTE.

Meeting of Doctors at Evansville-Greencastle Banner Burned Out-

Other News of the State.

Special to the Indianapolis Journal. LAFAYETTE, Ind., Nov. 7 .- John Haberly, an attache of the Bostock shows, who has been in charge of a portion of the company's menagerie, which was left in a large barn at Ninth and State streets when the company closed its engagement here at the close of the carnival, was taken to an isolation hospital to-day suffering with virulent smallpox. His detention by the authorities and the subsequent flight of three companions who assisted him, the latter fearful of being quarantined, has caused a queer and dangerous condition of affairs. In the barn are three immense leopards, several hyenas and some spotted wolves. Haberly's sickness leaves them unprotected and without food, and nobody can be found in the barn or elsewhere who has courage enough to go near the beasts.

When Haberly was found it was not known that he was suffering from smallpox, but a subsequent diagnosis revealed the fact and Health Officer Guy R. Levering had him taken to the temporary pesthouse, the new building not having been completed. Just what will be done with the wild animals has not been decided. The barn undoubtedly is infected with the disease and steps will be taken to fumigate the building. Persons obliged to pass the building and hear the howls of the hungry animals feel some alarm and quicken their

Fifty-Barrel Well Opened in Fall Creek Township, Hamilton County.

pecial to the Indianapolis Journal. NOBLESVILLE, Ind., Nov. 7 .- A rich find of oil has been made in this county. On Wednesday drillers developed a well on Mrs. Martha Faucett's farm in Fall Creek township that shows a daily capacity of fifty barrels. It is the property of John McMahan & Co., of Muncie, who have leases on several hundred acres of land in that locality. The arill in this well went to a depth of fifty feet in Trenton rock. There is much excitement over this prom-sing oil field. The Star Union Oil Company, of Indianapolis, is making arrangements for extensive explorations in Wayne township. Drilling will begin next week.

ELWOOD'S GAS FIGHT.

Meters Will Be Installed Pending Decision by the Court.

Special to the Indianapolis Journal. ELWOOD, Ind., Nov. 7.-The local gas companies gained an unexpected and decisive victory over the belligerent franchise holders here yesterday, when notice was served on the latter to have meters installed on their premises as per the companies' regulations. Several of the franchise holders have secured injunctions to prevent the company turning off the gas from them because they refused to have the meters put in, and the effort to have the injunction made permanent will be made in the Circuit Court on the 10th. In the meantime the meters will be installed and a record kept of the gas used by each consumer, and in the end, if the franchise holders are defeated, after the matter is carried through the higher courts, which promises to be done, they will have to pay for all the gas they have used. On the other hand, if they succeed in estab-lishing their right to free gas, the installation of the meters will have cost them

Demand for Voting Machines.

Special to the Indianapolis Journal. KOKOMO, Ind., Nov. 7 .- The delay in completing the official count of Tuesday's election has brought about a demand for the introduction of voting machines in this county. Up to a late hour to-day the count was not yet completed, ready for the printers. It is argued that the reduction in the poll officials and the shorter time required to count the votes would pay for machines in a few years, to say nothing of the satisfaction of prompt reports of the elections. It is further urged that the delay in receiving returns gives ground for allega-tions of fraud or attempted fraud, all of which would be obviated with the use of voting machinese.

Who Accept My Offer Get Well. No Money is Wanted.

I ask only a postal card naming someone who is sick. Tell me the book to send. I ask it as an act of humanity. Write it to-day, and I will do all the rest.

I will even do this -- I will mail the sick one an order-good at any drug store-for six bottles Dr. Shoop's Restorative. He may take it a month at my risk. If it succeeds, the cost is \$5.50. If it fails, I will pay the druggist myself. And the sick one's mere word shall decide it.

Don't think that too fair to be possible, for I do just as I say. I do it to convince those who don't know me, and so that everyone

who needs help will accept it. I have learned that the cured ones are fair. I have furnished my Restorative to hundreds of thousands on just those terms, and 39 out of each 40 have paid gladly, because they were cured. I have willingly paid for the rest.

And I spent a lifetime in perfecting the remedy before I ever offered it to anyone. At thousands of bedsides, in hospitals and homes, I have watched it cure the most difficult cases that physicians ever meet. I learned that it does not fail, save where some cause-like cancer-makes a cure impossible. My success comes from strengthening the inside nerves. My

Restorative brings back that nerve power which alone operates every vital organ of the body. Common treatments merely doctor the organs, and the results at best are but temporary. My remedy restores the nerve power that makes these organs act. No other treatment does that, and there is positively no other way to make weak vital organs well.

My book will explain this. It tells about the only remedy so sure that any man dare offer it on such a plan as mine. Won't you tell me a friend who needs it?

STAR ROUTE CONTRACTOR

C. R. Houchins, of Georgia, Has Had

Much Experience. C. R. Houchins, who for several years has been engaged in the star route mail delivery business, is a guest at the Denison Hotel. He is here with a view to purchasing an interest in mica and asbestos mines in Georgia that are controlled by Indiana people. Houchins has been a successful star route contractor, but is now ready to retire from the business. These star routes are mail delivery routes that their absolute lack of ammunition has are operated by the government in certain localities. For many years Houchins and others have taken contracts from the government for the delivery of mail along certain routes. They would then sublet the routes to people living in these particular localities. The government, however, has put a stop to this system and now lets the contracts to people who live near the routes. "This was done," said Mr. Houchins, "because the competition got to be so strong after these routes that contractors would take them for a very small sum. They would then have to let them to carriers at a correspondingly small amount. On some of these star routes the pay of the carriers would not amount to more than 60 to 70 cents a day. The government found that it could not get the right sort of service and adopted a new rule. The contracts are now let directly to the people who carry the mail. Under the present arrangement the people who carry the mail get 200 per cent. more out of it than under the old arrangement." Mr Houchins says the rural free delivery is taking the place of the star routes in Indiana.
